

Comprehensive Tasks and Bugs

I printed out everything I have sent in PDFs along with three emails that we've exchanged about changes. This document should include everything that we've talked about, including today's conversation about the completed tasks...

Please let me know when the Athlete Approval issues mentioned below are resolved and I will restart the testing. I am trying to go through all of the tasks and create a final list so that we know everything is addressed and that we're not forgetting anything.

New: State Selection Duplicated

We probably don't need this a second time. It may cause confusion and database errors if they select a different state for some reason.

Comprehensive Tasks and Bugs

The image shows a registration form with the following fields and values:

- First Name:** december *
- Last Name:** 23 *
- Email:** jacobharris34@hotmail.com *
- Height:** 5' 6 *
- Weight:** 201-215 *
- State (for your H/AAU Team):** Texas *
- High School/AAU Team:** Add your school *
- HS/AAU Name:** 1234 HS
- Address:** 1234
- City:** Houston
- Remove?** (button)
- State:** Texas *
- Zip Code:**
- Sport:** Select One
- Jersey Number:** *
- Graduating Class:** Select One *
- Intended Major:** Select One *
- External Source:** *

Two red circles highlight the 'State' dropdown menus, one for 'State (for your H/AAU Team)' and one for 'State'.

Bug: Add School Not Working

When I applied to join the site as athlete "december23athlete" I input "1234" as the name of the high school. This school did not make into the database, but the athlete was

Comprehensive Tasks and Bugs

still able to complete the registration. I think this may have been because I entered the captcha incorrectly the first time. Regardless, the athlete should not have been able to register without inputting/selecting the high school/aau team or if it was input, it should have been added to the database.

- Bellevue ISD
- Brackenridge HS - San Antonio
- Brackenridge HS - Brackenridge

Comprehensive Tasks and Bugs

Bug: This is just an image to add clarification to the previous bug.

In the database the athlete is not assigned to a school/team.

The screenshot shows a web browser window with multiple tabs. The active tab is 'College Prospect Network ...'. The URL bar shows 'collegeprospectnetwork.growthlabs.ca/admin/Athlete/edit/704'. The page has a left sidebar with a menu of administrative tasks. The main content area displays a form for editing an athlete's profile. The form includes the following fields:

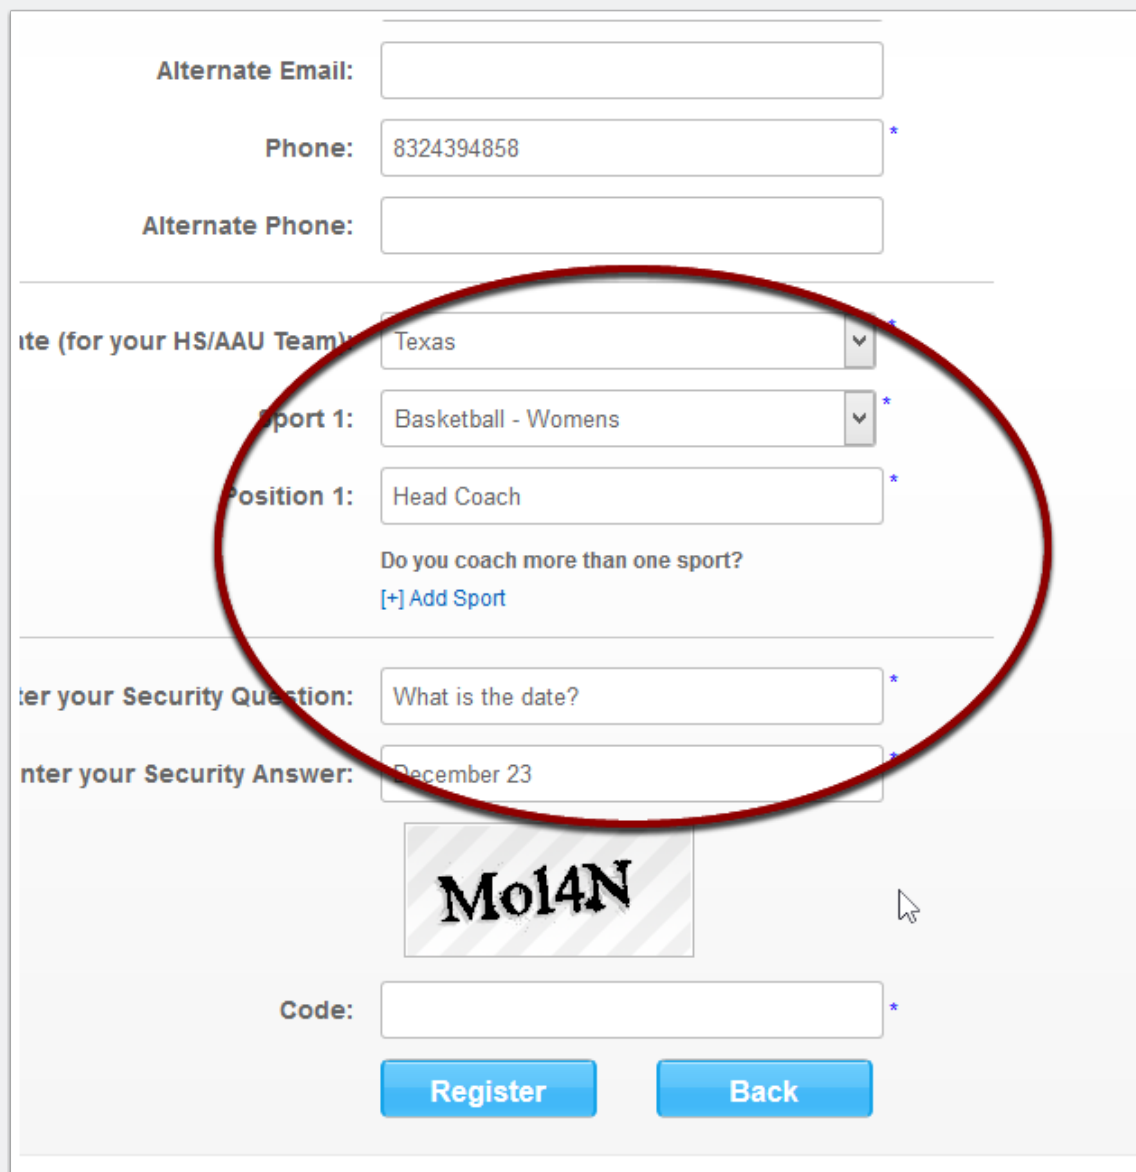

- Last Name: 23 (indicated by a red arrow)
- Class: 2017
- Height: 5' 6"
- Weight: 201-215
- Primary Position: Please Select
- Secondary Position: Please Select
- Vertical:
- 40-yard Dash:
- Shuttle Run:
- Bench Press Max:
- Squat Max:
- GPA: Please Select
- SAT Score: Please Select
- ACT Score: Please Select
- Class Rank: Please Select
- Intended Major: Undecided / General Studies
- Cleaninghouse Eligible: Please Select
- BIO:
- HS/AAU Team: Select HS/AAU Team (circled in red)
- Sport: Basketball - Womens
- Status: --Select--

Bug: School Selection not Available

This may provide some additional information about the above bug. As I mentioned on that one I entered the captcha incorrectly and noticed that the athlete was approved without a school and/or the school was not entered successfully into the database. This

Comprehensive Tasks and Bugs

time attempted to register as a coach but I used an email that was already in the database, so I got an error. This time I looked more closely and noticed that the school is no longer available for selection.

Comprehensive Tasks and Bugs

Bug: Unable to Assign School/Team to Player

I am still trying to move forward with the testing of this player so that I can verify the Athlete Approval process, but I can't change the school/team for this player "december23athlete". This is critical because players move schools and change AAU teams often, so we need to be able to update the database to reflect that. On a related note, where is the list below coming from? There does not appear to be any sort of rhyme or reason to how these schools appear in the menu.

Comprehensive Tasks and Bugs

Bug: Grammar on HS Coach Approval Email

The email is working to alert the coach to log-in and approve their athlete, but there are some minor things in here that don't look very professional:

Intro - Should be a comma instead of a period. Also, there should be no space between the last name and comma.

Line 1 - The word "You" should be flush with the left margin and the semi-colon should be removed. The "C" in CollegeProspectNetwork.com should be capitalized to match the rest of the URL text.

Line 2 - There should be an apostrophe between the last name and the "s" and it should be one word without a space.

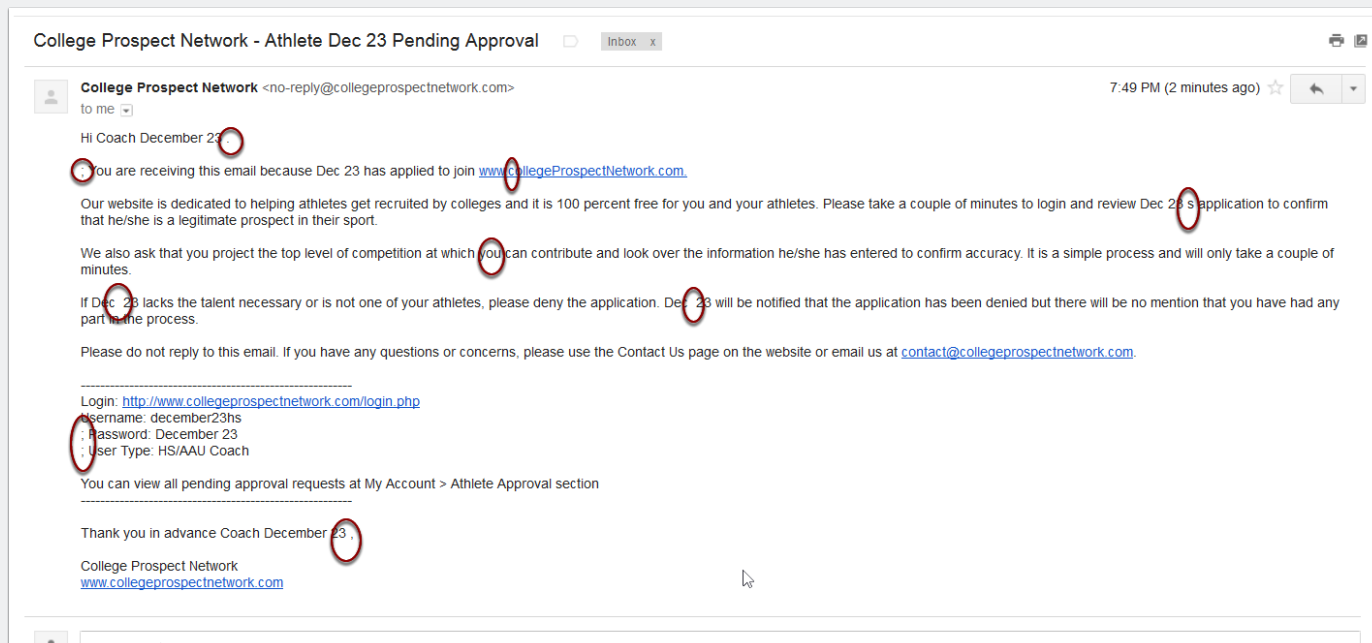

Line 4 - "you" in this line should be replace with "he/she".

Line 6 - It looks like there are two space between the first and last names in this line. It should only be one line.

Log-in Info - I like that the password and user type are indented but please remove the semi-colons here as well.

Sign off - The comma should be directly after the last name without a space between them.

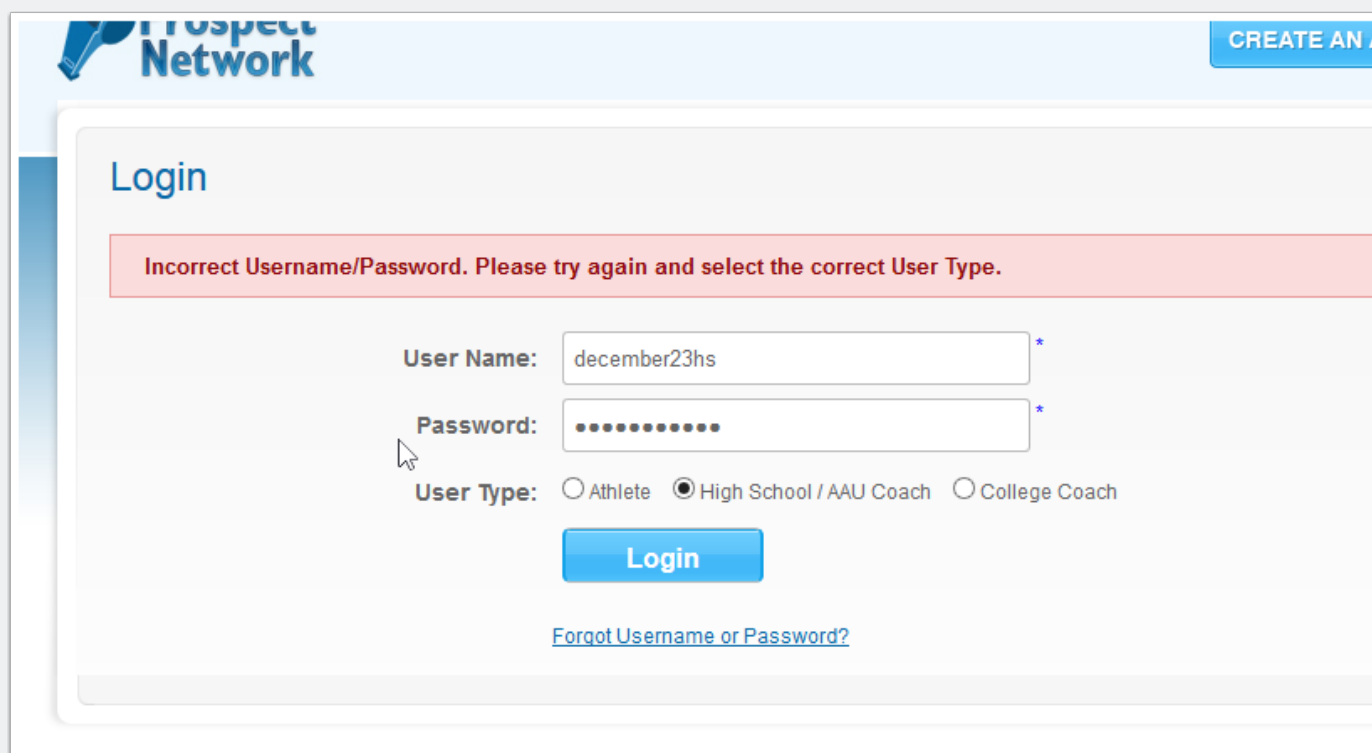

Comprehensive Tasks and Bugs

Comprehensive Tasks and Bugs

Bug: Can't Log-in

Following the email above, I attempted to sign in with the given log-in info (which was the correct info for what I entered when I registered) but I can't get in. I also noticed that this coach had a status of "de-active" in the admin panel. This should not be the case for HS/AAU coaches since they don't have to apply to join the site. But I changed it to "Active" in the admin panel and the site still won't let me sign in.

The screenshot shows the Prospect Network login interface. At the top left is the Prospect Network logo, and at the top right is a "CREATE AN ACCOUNT" button. The main heading is "Login". Below it is a red error message box that reads: "Incorrect Username/Password. Please try again and select the correct User Type." The login form contains three fields: "User Name:" with the value "december23hs", "Password:" with masked characters, and "User Type:" with three radio button options: "Athlete", "High School / AAU Coach" (which is selected), and "College Coach". A blue "Login" button is positioned below the "User Type" field. At the bottom of the form is a link that says "Forgot Username or Password?".

Comprehensive Tasks and Bugs

Today: Stats Query

I am having trouble finding something that matches what I have in mind, but the old version of the site worked pretty well. Basically all of the stats that we have as fields for the players and/or coaches to input after a game/event is completed - ie. points, rebounds, steals for basketball and passing yards, tackles, interceptions, etc. for football - should be searchable. In order for them to be searchable, everything has to be calculated. Then the College Coach user can search by minimum points per game, rebounds per game, and all other potential categories. It would be similar to the advanced search on AdventureLink that you mentioned.

Scout's Notes:

EYBL Peach Jam (July 16th-20th, 2014): De'Aaron is a super long lefty who can flat out score the ball. He is quick off the dribble and knows how to get in the lane and cause problems for the defense whether it be scoring or dropping assists to teammates. He has a good mid-range jumper and is a good ball handler. He is extremely smooth and has a great feel for the game.

Comprehensive Tasks and Bugs

Today: Multiple Coaches

I can't really think of a possible screen shot that would apply here, but basically the player can play for two or three completely different teams. All of the coaches who match those teams and sports should be tied to the athlete without the athlete having to create a new profile for each. For example, last year Leon Gilmore attended Manvel HS, played local tournaments with Houston Clippers, and played national tournaments with Houston Hoops. If he was on our site that would mean Coach Greg Devers (Manvel), Coach Jason Pillow (Clippers), Coach David Bosley (Clippers) and Coach Charlie Hurd (Hoops) would all be his coaches at the same time. However, only one of them would have needed to approve him for the site. So say Coach Pillow signs up for the Houston Clippers and approves Leon. Then a few weeks later Coach Devers joins and the system sees that he matches Leon's sport (Basketball - Men's) and high school (Manvel) then he should be given the option to add himself to Leon's profile.

Most Recent Email: Question 1

Yes, the "Other Athletes You May Like" feature, it would be perfect to place that under the results table.

Most Recent Email: Question #1.A.

The location of the name search the Athlete's Name is perfect where it is. I was asking for clarification for the user as to whether they are searching by first name or last name or full name. I like the way the results table is setup now, but there are a few minor issues. I'll address that in the next line, but I was asking to see First Name:

Comprehensive Tasks and Bugs

_____ Last Name: _____ as two options, rather than simply "Athlete Name:". I feel like users will be confused as to what they are supposed to input.

Was that your question? Or were you only asking about the location of the name bar?

The screenshot shows a web browser window with the URL `v/Athlete/search`. The page title is "Athlete Search" and a note states "* All Search Fields are optional". The form is organized into several sections:

- Basic Details:** Contains two input fields, "First Name" and "Last Name", both of which are highlighted with red rectangular boxes.
- Athletic Stats:** A large section with multiple dropdown menus for "Sport", "Graduating Class", "Division", "Height", "Weight" (with "Select Min Weight" and "Select Max Weight" sub-options), "Wingspan", and "Sport Position" (with "Select Primary Position" and "Select Secondary Position" sub-options). To the right of these are input fields for "40-yard Dash", "Shuttle Run", "Vertical Jump", "Bench Press", and "Squat Max", each followed by a unit label like "seconds or faster" or "lbs or heavier".
- Athletic Points and Intangible Ratings:** Includes "Points:" and "Ratings:" dropdown menus.
- Academic Stats:** Includes dropdown menus for "GPA", "SAT Score", "ACT Score", "Class Rank", and "Intended Major".
- Stats Category:** A dropdown menu.
- Location:** Includes a dropdown for "HS/AAU Team", a "State:" dropdown menu (showing "Select States", "Alabama", "Alaska", "Arizona"), and a "ZIP Code:" input field followed by a "within" label and another dropdown menu.

Comprehensive Tasks and Bugs

Most Recent Email: Question 1.B.

If your question was about the results table, this is very close to what I had in mind. However, there are a few minor things.

1. The spaces between the city and comma should be fixed. It doesn't look professional this way.
2. The "School" category should say something like, "School and/or AAU Team". Can we do something like shrink the text in this box so that multiple schools/teams will fit when needed? They should be displayed in separate rows so the text will need to large enough to be read, but small enough to fit the name of the school/team in one line.
3. What is the Stars category? I am not sure exactly where this data is coming from. Was this created by the previous developer?
4. How is this data being organized? I can't see any discernable rhyme or reason to the order of results. Maybe in order of when they registered for the site? I think they should be organized by the "Stars" category, but that should come from the rating we and the coaches give the kid.
5. Multiple sports should not appear here. It should only be the sport for which the College user performing the search has a subscription.

Most Recent Email: Question #2

Yes, that is a perfect solution. Please make sure it also has the option for them to enter the team as well as select the team though. Just like the registration page.

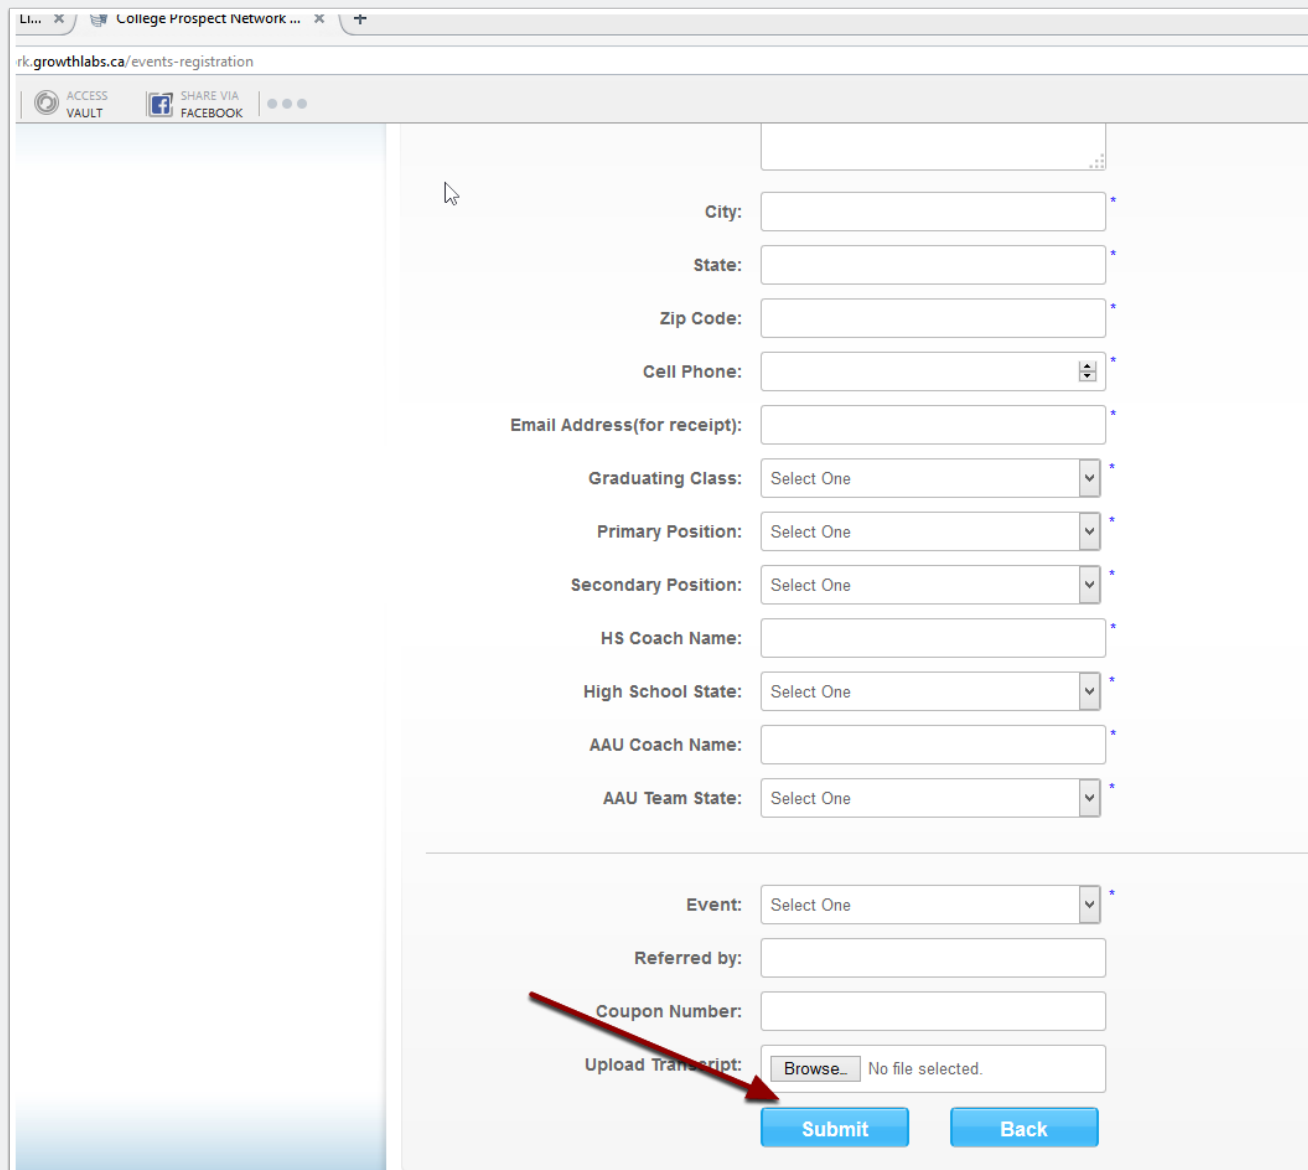

Most Recent Email: Question #3

I was referring to the game stats link you provided. Not the search points.

Comprehensive Tasks and Bugs

Pending: Captcha

Can we include a captcha on the Event registration page as well?

The screenshot shows a web browser window with the URL `rk.growthlabs.ca/events-registration`. The page contains a registration form with the following fields:

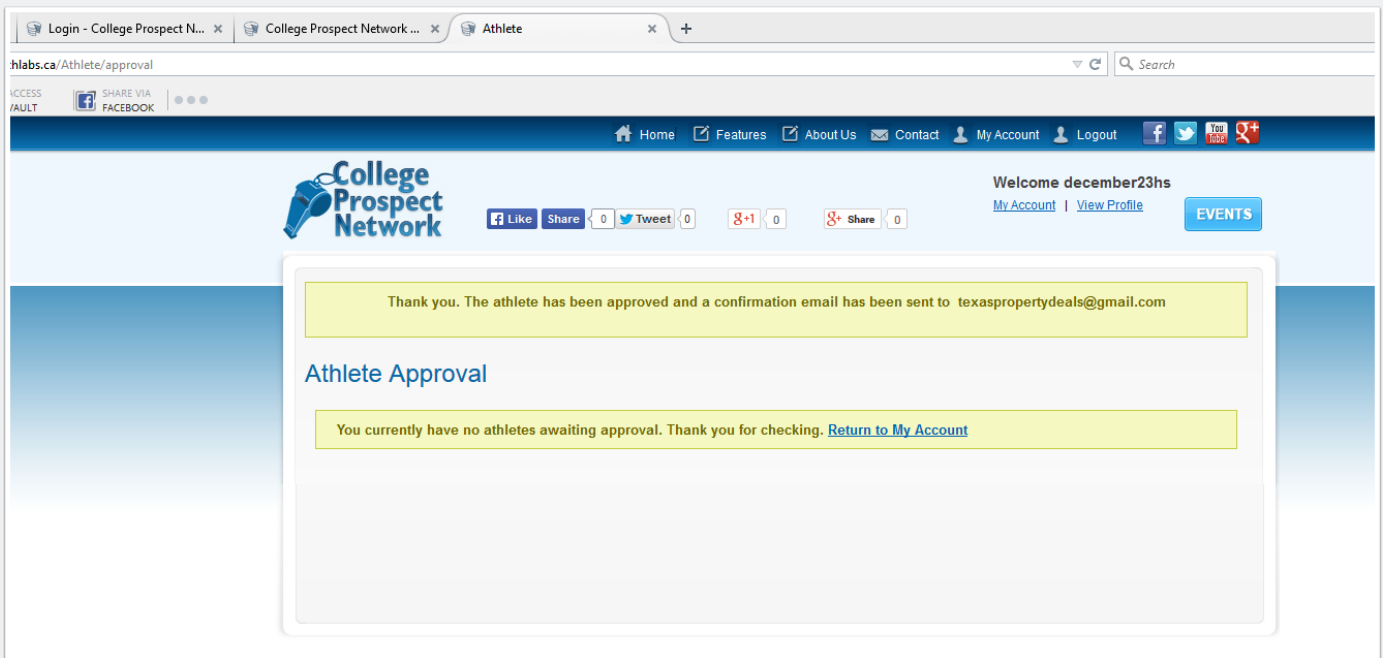

- City:
- State:
- Zip Code:
- Cell Phone:
- Email Address(for receipt):
- Graduating Class:
- Primary Position:
- Secondary Position:
- HS Coach Name:
- High School State:
- AAU Coach Name:
- AAU Team State:
- Event:
- Referred by:
- Coupon Number:
- Upload Transcript: No file selected.

At the bottom of the form are two buttons: **Submit** and **Back**. A red arrow points from the "Upload Transcript" field area down to the **Submit** button.

Comprehensive Tasks and Bugs

Bug: Athlete Approval Process

I am still not seeing the opportunity to rate the player that I approved. When I clicked "Yes" that I am sure I want to approve the athlete, it just takes me to the page below. It should send me to a page or pop-up that ask me to project the level at which the player can contribute at the next level and then another page that allows me to leave a public comment about the player. The rating should only be seen by College users and NEVER by the Athlete, but the comment is for all user types to see.

Comprehensive Tasks and Bugs

Pending: Scouting Reports

I see that you have added these reports, but we will need to talk about the formatting and the best/easiest to integrate these reports and manage the information. We may need Adam for that though.

Comprehensive Tasks and Bugs

Pending: Sports Available in Search

In the Admin panel you will see that College user "NCAA" is only registered for one sport, which is Basketball - Men's. However, in the search the user is able to toggle between all three sports. This should not be the case. Each subscription is specific to one sport unless this user pays for multiple sports.

The screenshot shows the 'Athlete Search' form on the College Prospect Network website. The 'Sport' dropdown menu is highlighted with a red circle, showing options: 'Select Sport', 'Basketball - Womens', 'Basketball - Mens', and 'Football'. Other fields include 'Athlete Name', 'Graduating Class', 'Division', 'Height', 'Weight', 'Wingspan', 'Sport Position', '40-yard Dash', 'Shuttle Run', 'Vertical Jump', 'Bench Press', 'Squat Max', 'Points', 'Ratings', 'GPA', 'SAT Score', 'ACT Score', 'Class Rank', 'Intended Major', 'Stats Category', 'HS/AAU Team', and 'State'.

Pending: Alerts for Incomplete Actions

Though I have multiple email addresses registered with all user types, I have not received any alert emails or alerts when I log in that things in my profile need to be

Comprehensive Tasks and Bugs

completed. You can see by the screen shot below that the Athlete test profile I am using most frequently has several things needing to be completed, but there are no alerts.

The screenshot displays the athlete profile for 'Dec 23 - #000' on the College Prospect Network. The profile is for a user named 'dec23test'. The page layout includes a header with navigation links (Home, Features, About Us, Contact, My Account, Logout) and social media icons. The main content area is divided into several sections:

- Athletic Stats:** Lists personal and athletic information. Red circles highlight the missing 'Primary Position' and 'Secondary Position' fields.
- HS / AAU Coach Quick Glance:** Provides contact information for the coach, including name, phone, and address.
- Basketball - Womens Stats Summary:** A summary section with a red circle around the message 'Athlete has not entered any stats'.
- Academic Stats:** Lists academic performance metrics like GPA, SAT Score, and ACT Score.
- Game Film:** A section for game footage with a red circle around the message 'User has not added any videos yet'.
- Comments:** A section for user comments with a red circle around the message 'You have not added any comments yet'.
- Upcoming Games:** A section for scheduled games with a red circle around the message 'No Games Scheduled'.
- Athlete Bio:** A section for the athlete's biography, currently empty.

Red circles are drawn around the following elements to indicate missing data or tasks:

- A large circle around the profile picture placeholder.
- A circle around the 'Primary Position' field in the Athletic Stats section.
- A circle around the 'Secondary Position' field in the Athletic Stats section.
- A circle around the 'Athlete has not entered any stats' message in the Basketball - Womens Stats Summary section.
- A circle around the 'User has not added any videos yet' message in the Game Film section.
- A circle around the 'You have not added any comments yet' message in the Comments section.
- A circle around the 'No Games Scheduled' message in the Upcoming Games section.

Comprehensive Tasks and Bugs

Pending: Remove Past Graduaes from Standard Search

In the 10/19 list (Task #9) I asked that any graduated athletes be removed from the standard search results on September 1 of the same year. For example, Athletes who graduate this year should remain active in the standard search up until September 1, 2015. Then they should be grouped with Athletes who graduated in 2011, 2012, 2013, and 2014. User may have the option to select which of these classes they would like to include. Maybe they want 2014 only or maybe they want 2012 and 2014 for some reason. Any graduating classes older tha 4 yars back do not need to be included.

I do't know how this should work, but the older classes definitely need to managed and the standard shouldno longer include them on September 1.

Adam, please advise.

Comprehensive Tasks and Bugs

The screenshot shows the 'Athlete Search' form on the College Prospect Network website. The form is divided into several sections: 'Basic Details', 'Athletic Stats', 'Athletic Points and Intangible Ratings', 'Academic Stats', 'Stats Category', and 'Location'. Annotations are present: a red circle with the number '1' is around the 'Division' dropdown menu; a red circle with the number '2' is around the 'Height' dropdown menu; a red circle with the number '3' is around the 'Include Post Graduating Classes' checkbox. The 'Athletic Stats' section includes fields for Sport, Graduating Class, Division, Height, Weight, Wingspan, Sport Position, 40-yard Dash, Shuttle Run, Vertical Jump, Bench Press, and Squat Max. The 'Academic Stats' section includes fields for GPA, SAT Score, ACT Score, Class Rank, and Intended Major. The 'Stats Category' section includes a field for Stats Category. The 'Location' section includes fields for HSAAU Team and State. The form is set against a blue background with the College Prospect Network logo at the top left.

Pending: Share Stats, Videos to Other Sites

Can we all agree that this can wait for Phase 2 of development, as it is not a bug and not a priority at this time?

These are the things that I have checked off and am considering resolved/completed:

1. From 10/15 report - Remove the LLC name.

Comprehensive Tasks and Bugs

2. From 10/15 report - Admin panel access.
3. From 12/23 meeting - red alerts for actions needing to be completed appears to be working fully.
4. From 12/23 meeting - minimum length of school name input appears to be completed.
5. From 12/23 meeting - alerts to Admin for all user registrations appears to be working fully.
6. From 12/23 meeting - remove inactive members from messaging list appears to be working fully.
7. From 10/15 list - it appears system is now matching Athletes with their correct HS/AAU Coaches correctly.
8. From 10/15 list - it appears Athletes are no longer being allowed access without first being approved.
9. From 10/18 list - Event registration fields are all mandatory now.
10. From 10/18 list - College users are being directed into the site correctly when registering.
11. From 10/18 list - messaging features is now worded correctly with "a College Coach", "to a HS/AAU Coach", etc.
12. From 10/18 list - Invite an Athlete feature working correctly.
13. From 10/18 list - athlete registration is now functioning and being entered into the database correctly.
14. From 10/18 list - admin panel is accessible

Comprehensive Tasks and Bugs

15. From 10/18 list - text about CPN reviewing the applicatin has been corrected.
16. From 10/19 list - subscription options are being displayed correctly.
17. From 10/19 list - users now select the state prior to selecting the school.
18. From 10/19 list - Admin can now access site as any user type.
19. From 12/9 email - username check is working correctly.
20. From 12/9 email - Athlete's name is appearing in subject line of emails correctly
